1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 7-11 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: regarding claims 1 and 12, the primary reason for allowance is the inclusion of the limitation "said pads that are formed on said front rail have . . . said first height to said second height with a given inclination angle such that the upstream end of said inclined upper end surface is higher in level than the downstream end".

As stated by applicant, the combination of the applied prior art would result in the pads being formed on the front rail also having an inclined surface that is lower at the upstream than the downstream end. "In contrast, the claimed pads of the present invention that are formed on the front rail have inclined surface which is higher at the upstream end than the downstream end."

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David D. Davis whose telephone number is 571-272-7572. The examiner can normally be reached on Monday thru Friday between 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dwayne D. Bost can be reached on 571-272-7023. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
